CST336 Final Project

User Story:
- As a user, I want to search for movies to watch.
- As a user, I want to be able to sort the movies by genre.
- As a user, i want to be able to sort the movies by the year they were released, by the name of the movie, by the rating, by the producer (ex. Walt Disney Pictures), and also by the genre.
- As a user, I want to be able to see all the movies in a certain genre. The genres would be: crime, drama, adventure, animation, etc. Also, the same movie can be a part of multiple genres.
- As a user, I want to be able t sort the results in either ascending or descending order by a certain field, such as year or rating.
- As a user, I want to have the option of the website providing me with a random movie when I am not sure what to look for.
- As a administrator, I want to be able to login with special credentials.
- As a administrator, I want to be able to insert a new record into the database, such as a new movie.
- As a administrator, I want to be able to generate reports about the database such as the average rating of all the movies currently in the database.
- As a administrator, I want to be able to update and delete existing records (movies) in the database.
